WORK EXPERIENCE

Radix   **Mar. 2017 – Present**
Onsite Network Engineer - 1099   *San Diego, CA*
- Collaborate as the POC/Engineer on-site for Premier-Plus accounts representing Brocade (NGEN, Navy Medical Hospital, SPAWAR)
  - Analyzed customer needs day-to-day on premises, assisted in solutions to customer networks and seek new opportunities for other Brocade offerings (Hardware, software and/or support)
- Developed training materials, technical documentations, reviewed configurations for compliance (DoD – STIGs, ACAS), and impact on potential future implementations as well as testing demos (Automation utilizing Ansible/Docker Compose on Linux/Ubuntu)

PGTek   **Mar. 2015 – Mar. 2017**
Consultant/Resident Engineer   *Centreville, VA*
- Collaborate with Verizon traveling to various data center sites across the US assisting in installation and configuration of Brocade IP Hardware during open maintenance windows
- Oversee hardware deployment (Post-Sales) and configuration management
  - Manage Verizon's deployment of new network routers/switches, oversee configuration management and ensure correct configuration (BGP)
  - Ensure successful transition as on-call POC during maintenance windows
- Led as vendor POC (Brocade) under SAIC for Marine Corp's Task Order (MCEITS) in Kansas City, MO
  - Plan a network infrastructure for new data center upgrading to a Fiber Optic backbone
  - Collaborate with multiple vendors in data center buildout from rack stack to implementation

Teksouth   **Nov. 2013 – Mar. 2015**
Network Engineer   *Arlington, VA*
- Assist in day-to-day operations and maintenance of DARPA's IT infrastructure
  - Monitor and troubleshoot ticket issues (via Remedy)
    - Solarwinds as a configuration management/NMS tool
    - Config changes (L2-L3) on switches/routers (VLANs, routes, STP, QoS)
    - Firewall (east-to-west policies)

SMS Data Products   **Dec. 2011 – Nov. 2013**
Project Analyst/Jr. Network Engineer   *Arlington, VA*
- Assist with support in design of DARPA's network infrastructure and physical perimeter connectivity with the agency's Information Technology and Services department
- Work with Program Manager to assist and relocation efforts of 1100 users while concurrently maintaining services utilizing MS Project
